 Portfolio  +91 93950 98694

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, Python, C

Frameworks & Libraries: React.js, Bootstrap, Tailwind CSS, Node.js, Express.js, Flask, FastAPI, Django, Pandas

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Docker, Nginx, Firebase, Postman, VS Code

EXPERIENCE

Python Developer Intern (Part-time)

Feb 2025 – Present

Meridian Voyage

- Developed Python APIs and automated data collection via bots and web scraping.
- Built dashboards and analytics pipelines for business intelligence insights.

PROJECTS

Meridian Voyage – Full-stack Data Analytics Platform

- Led design and development of the entire client-side application using React.js and Daisy UI, delivering a seamless, responsive user experience.
- Created custom interactive graphs and visualizations tailored for US stock market data analysis.
- Developed RESTful APIs with Django, managing complex data workflows backed by PostgreSQL.
- Automated financial data extraction through web scraping and bot technologies, building rich datasets.
- Implemented business intelligence dashboards leveraging Python libraries for advanced data analysis.
- Configured Docker containers, deployed new client setups, managed Nginx servers, and enabled HTTPS for secure production deployment.
- Developed secure email authentication features for signup, password recovery, and account verification.

ParcelPro - Courier Management System

 GitHub —  Live Link

- Streamlined courier operations with real-time tracking, user authentication, and email notifications.
- Built with the MERN stack (MongoDB, Express.js, React, Node.js) and styled with Tailwind CSS.

MyNotebook

 GitHub —  Live Link

- Cloud-based platform for managing notes, to-do lists, and email reminders.
- Developed with the MERN stack (MongoDB, Express.js, React, Node.js).

Code Vision Website

 Live Link

- Official website for Code Vision, the coding club of BCET, Durgapur.
- Provides event updates, resources, and fosters a tech-driven student community.
- Built with React.js, Tailwind CSS, and Firebase. Optimized for discoverability via SEO.

CoordiName

- Converts locations into unique four-word combinations with quarter-second level precision (e.g., "quakier-delivery-take-scientific").
- Developed with React, FastAPI, and PostgreSQL.
- In Progress

EDUCATION

Bengal College of Engineering and Technology, Durgapur

B.Tech in Computer Science and Engineering

CGPA: 7.5

Aug 2022 – May 2026

Maharshi Vidya Mandir Senior Secondary School, Guwahati

AISSCE (Class 12): 83% AISSE (Class 10): 94%

POSITIONS OF RESPONSIBILITY

Web Lead

Sep 2024 – Present

Google Developer Groups On Campus, BCET

- Leading the web development team for technical projects and events.

Organizer

Aug 2024 – Present

Code Vision BCET

- Organized coding events and workshops to promote a coding culture.

Coordinator

Apr 2023 – Aug 2024

Entrepreneurship Development Cell, BCET

- Organized events focused on entrepreneurship and innovation.

CERTIFICATIONS

- The Complete JavaScript Course 2023: From Zero to Expert!

- Python and Django Framework for Beginners

- Python and Flask Framework Complete Course

- Git for Beginners

- Artificial Intelligence Expert Course + Live Class

ACHIEVEMENTS

- 2nd place in CODE OF DUTY and 3rd place in CODE ERROR

- 2nd place in CODEJAM HACKATHON with Team Edgerunners

KEY STRENGTHS

- Strong problem-solving and analytical skills - Effective team collaboration and leadership abilities - Fast learner with a passion for mastering new technologies - Excellent communication and organizational skills

INTERESTS

- Exploring emerging technologies in AI and web development - Competitive programming and problem-solving - Reading about tech innovations and entrepreneurship
